Thanks, Kari! We'll keep an eye out for the hard-copy file. I believe we did receive documentation directly from the company, so I'll confirm that with our FIFRA document control officer and we'll link the two together on our end.

We've had some changes in management here, so please send any future original files by mail to the attention of Estrella Calvo, not David Star. All other mailing address information should be the same.

Thanks again!

Claudia –

Brad came across this PEI yesterday and I have no record of mailing it to you. Here is an electronic copy. The original is in the mail today to David Star. This one was requested by Syngenta mid-July 2019. Their attorneys are involved due to confidential information in the documents. They were to send the documentation to US EPA directly. Here is our documentation.

My apologies for the lateness. I have no excuse other than it got buried under misuse cases.
